

Music for your soul...

Declaration of love

Search is over - I found you

The start was tricky - But all problems we've solved

Everyday - I spend with you

With silence and much laughter too

Oh Baby, I feel so cared
Oh Baby, bad and good times we've shared
for you I've searched
or just in other words
You make it easy - to love you

It's like chords - In a symphony

Chained and accomplished in harmony

In any case - you're my favorite song

I love to listen to you all day long

Oh Baby, I feel so cared
Oh Baby, bad and good times we've shared
for you I've searched
or just in other words
You make it easy - to love you

I'LL BE WAITING

Where have you gone - Where have you been
why you're on the run - why can't you see
that no one wants - your misery

you said you are tired - there's a big hole
and you're sittin' in - feelin' out of control
- and what you need - is a direction sign

have the world as your home
cause you are not alone

i'll be waiting - don't you know that i will be waiting
here in the sun

Where would you stay - out there on the run
what do you seek - what can you find
after what you are chasing
- to find your luck

what would you do - if you find what you seek
and is what you seek
really that what you need
you're a wanderer - always searching the way

if you seek only love - i will give you enough
i'll be waiting - don't you know that i will be waiting
here in the sun

i'll be waiting
don't you know that i will be waiting
don't you know that it never changes
don't you know that i will be waiting
here in the sun

you will feel only safe - if you dare to stay

i'll be waiting
don't you know that i will be waiting
here in the sun

FALL INTO PIECES

I'm lookin in the mirror - Is this really me
Where am I been now - Gone with the wind

I'm down on the ground - Searchin' for answers
Searchin' for me, for my peace of mind

Searchin' for reasons - Day after day
Givin life back again

I fall into pieces - With or without...
Tears on my window, Heaven in doubt
I fall into pieces
Losing the fight - I am mistaken, so long I was blind

You broke me with silence - I've tried to cry
But there is no water in the river - Cause you suck me dry

I'm down on the ground - Searchin' for answers
Searchin' for me, for my peace of mind

Searchin' for reasons - Day after day
Givin life back again

I fall into pieces...

You hurt me - Desert me - You crack me
That's getting me down

A deep hole - In my soul - To much darkness
I'm burnin out

I fall into pieces...

A better day

A cup of coffee, on your wedding dress
A flat tyre, on deserted place.
Dog s muck, on the carpet which is new
Just run of bad luck?

Cause anything is going wrong — hold on and start to

Cheer up
Cheer up
So cheer up
Cheer up, cheer up and stay
You will have better day

Till waitin' on the bus stop — it starts to hail
You come much to late - on your first date
All numbers match by the lottery
But you loose the ticket on the same day

Cause anything is going wrong — hold on and start to

Cheer up
So Cheer up
Cheer up
Cheer up, cheer up — and stay
You will have better day

Cheer up ...

You will have better day

A 100 days

It feels like a 100 days - since I've held you in my arms
it's just another lonely day - since the day that you've been gone
can't stand this empty feeling - I have when I'm on my own
time just drags without you - minutes seems like hours when I'm alone

It feel like a 100 days - might as will be a year
you only left yesterday - I just want you to be here
thinking of how it feels - having you by my side
just the thought of being without you - makes me wanna hang my head and
run and hide

It feels like a 100 days - I gotta have you here right now
I can't wait another day - baby only you know how
To make me feel so good - and make me feel so right
missing your hugs and kisses - all I wanna do is hold you tight

I don't wanna wait, can't stand the pain - living this way is driving me insane
I don't wanna stay here, I gotta go - pack my bags and walk out the door
being with you is all that I can see - I just wanna have you right next to me
cause living this life alone is more than I can take

It feels like a 100 days - since I've held you in my ars
it's just another lonely day - since the day that you've been gobe
can't stand this empty feeling - I have when I, on my own
time just drags without you - minutes seems like hours when I'm alone

I KNOW

Sittin' here close to you
your eyes show me truth
that your feelings for me have changed and your trying to find
Any words you can say
I feel you run out on me
But I know, that I can't change that you'll leave my life

So I say, I hope you will be happy baby
When you leave our love, our life
Cause you've been
Always my love, my best friend - I - know I have to let you go

In our love I depend ---on- But time wasn't my friend
There's still so many questions please answer me now
To live without you
I don't know how to do
But I know, that I can't change that you'll leave my life

So I say, I hope you will be happy baby
When you leave our love our life
Cause you've been
Always my love my best friend I know I have to let you go

uhu uhu

So I say, I hope you will be happy baby...

Rock Baby Rock and move your body to the groove
Listen to our songs and hang around here on the ground

Rock Baby Rock and make some party in the crowd
Dancing on the floor scream our names, yeah shout it loud

Rock Baby Rock come on now sing with us our shout
put your hands together, feel our way, we give you all

Rock Baby Rock now we're on stage enjoy the sound
Rock Baby Rock - with us - now come on let us shout

The bass is goin deep, we're playin music for the soul -
here the guitars playing - these (acoustic) rock n roll

Rock Baby Rock - that's how we make it - Feelin free
People now you hear the sound of the 21st century

Rock Baby Rock come on now sing with us our shout
put your hands together, feel our way, we give you all

Rock Baby Rock now we're on stage enjoy the sound
Rock Baby Rock - with us - now come on let us shout

ROCK ROCK ROCK BABY ROCK
ROCK ROCK ROCK BABY ROCK
ROCK ROCK ROCK BABY ROCK
ROCK BABY ROCK we are on stage to give you all

Rock Baby Rock come on now sing with us our shout
put your hands together, feel our way, we give you all

Rock Baby Rock now we're on stage enjoy the sound
Rock Baby Rock - with us - now come on let us shout

ROCK ROCK ROCK BABY ROCK
ROCK ROCK ROCK BABY ROCK
ROCK ROCK ROCK BABY ROCK
ROCK BABY ROCK we are on stage to give you all

FAITH

She called you idiot and meany too

And screamed at you - only that she could

Every minute you both disagreed - so really don't

so don't look back

Lets she talk trash

Shes telling lies - yes she faibles good

Shes a crackpot no-one understood

The game is over don't let palter with you

Because it's time to leave the trouble - and trust the new

Faith - in our love I will be here at your side - you don't need to hide your heart
because I will never hurt

You gotta have - faith - in our love the past is so far away, forget the anger,
scam and fight because - we will make it right

Bad times are over but it cut to the quick -

so many years have past you needed long time to quit

It's difficult to be yourself again

But i'm you're lover and you friend

And I will help you to

Faith in our love...

Lost in the city

so many dreams I'd love to live - I'm always willing enough to give
so many days have come and gone - so many nights are much too long
so many tears have come to pass - tell me how long will this all last

Lost in the city...

so many words I could have said - all these thoughts going through my head
so many chances left to take - All these decisions I have to make
so many lies have been told to me - I was so blind I couldn't see
and now there's no one here but me

Lost in the city...

so many dreams I'd love to live - I'm always willing enough to give
so many days have come and gone - so many nights are much too long
so many tears have come to pass - tell me how long will this all last

written by Tate Simms

Blue day

When the morning, creeps quietly into my room
And the daylight, tears me from my dreams
Then it becomes clear, that I must place myself to...reality soon

I don't understand, why it had to come that sad way
And I ask myself...why...again and again...I don't see a reason...
A reason for it

cause today is, the day of which I was so afraid, for a long time

ooh, it makes me feel so blue
....., it makes me feel so blue

cause today is, the day of which I was so afraid, for a long time

Too young to die, that's what people say
But it doesn't change...anything, anything
Now I stand here, and all I can do is...to put the flowers on your grave
And keep the memory of you

cause today is, the day of which I was so afraid, for a long time

ooh, it makes me feel so blue...

Why did you leave me

I don't understand.....
