so good

it's so good - to wake up every morning  
cause every day's a winnin' day  
so forget your problems  
change your mind – and you'll see  
there 's more than stress so just be cool - dare to enjoy life to the full

Let the time roll on - leave your duties undone  
do a lot of crazy things  
live your life in gaudy pink  
and all those things, that make a life worthwhile...

it makes me feel so good  
it makes me feel so fine

take some days – to drive mile after mile  
take a ride to sunny places  
hang around for a while  
have much fun - till the lights go on  
so leave your worries all behind - start to feel - the - good time

Let the time roll on - leave your duties undone  
do a lot of crazy things  
live your life in gaudy pink  
cause all those things, that make a life worthwhile ...

it makes me feel so good  
it makes me feel so fine

lyrics by Simone Altheide, music by Simone & Frank Altheide, Gerd Zimmermann

again

octobre 98, I stayed in a club on Tuesday night

You've been there on the stage, and sang I BELIEVE I CAN FLY

It was the first time that we met - but from this moment - we were friends

And when I'm shure about something - that our friendship never ends.

We know there will be times of change

But wherever we will be or go - we see us

again

we have an all-night party, playing cards and havin' drinks

we don't goin' home - not until the morning rings

we sit around and sing - those terrific, famous songs

and all we need is us - even without words we get along

then came the day our lives have changed

but we know that if we need a friend - we'll be there

again

we know there will be times of change

but we know that if we need a friend - we'll be there

again

we know that we will see us – we'll be there again

we know that we will see us – we'll see us my friend

lyrics by Simone Altheide, music by Simone & Frank Altheide

tonight

such a long, long time - we were only friends  
made music in our band

but time changed - and our feelings changed too  
we entered new land

not love at first sight, but at second sight we've found  
and now I love to have you 'round me  
and have you here tonight  
watch your sleep tonight  
hear you breathe tonight  
dream with you tonight

i care about you - like I've never done before  
you touch me so deep

you're my man - and when we're old  
we will still in love – sit at our garden bench

not love at first sight, but at second sight we've found  
the best thing is to have you 'round me  
and have you here tonight  
watch your sleep tonight  
hear you breathe tonight  
dream with you tonight

i watch you tonight, i want you tonight, i love it, i love it that you're at my side

lyrics by Simone Altheide, music by Simone & Frank Altheide

faithful

i am lying in my bed  
and my thoughts don't stand still  
i'm feeling sad, my stomach aches,  
my mind doesn't stop the drill

something's going wrong  
my words are getting lost  
why you're in doubt about me, the going's really tough

you know that I'm faithful  
you can depend on me  
you know that I'm faithful  
don't forget what's real

i am losing my best friend  
how could it come so far  
believe in us not in these fear, that captures your heart

you're in a prison of yourself  
and you're building higher walls  
please take the key and let me in  
before the curtain falls

you know that I'm faithful  
you can Depend on me  
you know that I'm faithful  
don't forget what's real

faithful, faithful, you can depend on me  
faithful, faithful, don't forget what's real

lyrics by Simone Altheide, music by Simone & Frank Altheide

sing

i wrote a song that night  
full of chords and lines  
the guitar's strumming round and round  
i Love the feeling when these words  
leave my lips it goes, step by step like flying

come and hear  
these rhymes

sing-singin my whole life, sing until I die - sing lalalalala

my heart's fullfilled with beat  
emotions warm and deep  
the notes are dancing in my mind  
i never wanna stop  
cause music is my love and live  
i know  
that it's always at my side

come and hear  
these rhymes

sing-singin my whole Life, sing until I die - sing lalalalala

lyrics by Simone Altheide, music by Simone & Frank Altheide

hey boy

hey boy why you're undercover  
hey boy what is wrong with you  
mmh, why do you suffer  
come on

hey boy tell me why you're weary  
hey boy I saw you playin' the blues  
mmh fight against the demons  
you should do

hey boy you can walk on water  
walk on water – set you free  
hey boy you can walk on water  
walk on water  
come on - boy - set you free

hey boy you should find your colours  
you don't have to feel so small  
wake up – let the sunny weather  
in your heart

hey boy you can walk on water  
walk on water – set you free  
hey boy you can walk on water  
walk on water  
come on - boy - set you free

lyrics by Simone Altheide, music by Simone & Frank Altheide

you've got me

when you're in trouble, down and out  
when you're empty feelin small  
and the World will knock you down

when you're thoughts are heavy-weight  
when your way's a lonely place  
and no answer is in sight  
i'll be there cause

you and me that's true  
you've got me ...

when it's hard for you to laugh  
and your days are really tough  
when nothing does'nt suit your plans

then believe in something new  
before you win you'll sometimes loose  
and suddenly there comes a change  
and I'll be there cause

you and me it's true, you've got me...

love & kill me

all the secrets that you keep  
i hear you talking in your sleep  
sweet, mysterious fantasy

angel love's the devil's kiss  
rock me baby all that dreams are real  
heaven and hell combined in bliss

loverman you love and kill me  
what you give is hot you thrill me  
loverman you love and kill me  
gimme all you've got the fire's burning hot

you and me are in tune  
deep deep sound endless groove  
ohohoh - we let love rule

loverman you love and kill me  
what you give is hot it thrill's me  
loverman you love and kill me  
gimme all you've got the fire's burning hot

lyrics by Simone Altheide, music by Simone & Frank Altheide

tell me

why you're looking in a mirror

- without a smile

the smile is missing you can you -

- stop to cry?

you're pain is old please let me now

- Take it from you

please open the door because there's nothing to lose

tell me why you always think you're falling - fall not to deep

tell me why you always see rain coming - the sun can you keep

tell me why you always keep on running - hold on to see

to see the world - cause the world is seeing you

you hope teardrops will warm you

- cause You're feeling cold

but love would give you much more

- it comforts your soul

your pain is old please let me bring

- Freedom to you

please open the door because there's nothing to lose

tell me why you always think you're falling - fall not to deep

tell me why you always see rain coming - the sun can you keep

tell me why you always keep on running - hold on to see

to see the world

it's only one life that we have

for flying, for flying

not crying, not crying

we all have the chance understand

that we are blessed with our life

and time is not to lose

tell me why you always think you're falling - fall not to deep

tell me why you always see rain coming - the sun can you keep

tell me why you always keep on running - hold on to see

to see the world - cause the world is seeing you

lyrics by Simone Altheide, music by Simone & Frank Altheide, Peter Kalff

alright

yes she waits  
every single moment  
but the telephone is quit

thinks about  
all the breaking romances  
what's the reason for her fight?

no one knows that she is searching for her way  
she's searching for the light  
no one knows that there's a wall she tries to break  
tryin to change her life, tryin to change her life

don't run, don't hide, spread your wings,  
cause heavens closer than you think tonight  
go out, find love, be sure that everythings will be alright  
this road, is right, cause if- you-try there's really so much luck to find  
don't run, don't hide - be sure that - everythings will be alright - alright

it is  
always the same  
you can win or lose that game

all she  
wants is a view  
and the end of the blue

and every time she is searching for her way  
she's searching for the light  
and she wants really try to break these walls  
tryin to change her life, tryin to change her life

don't run...

lyrics by Simone Altheide, music by Simone & Frank Altheide
